Introduction of stamps of new designs

From The Commissioner of Stamps.

4. The colours in which the several stamps will be printed;

5. The design and colours in which the Transfer, Notarial and Foreign Bill stamps have to issue, as no design is prescribed by the Stamp Committee.

Point 1. In the paper under disposal the Stamp Comm. recommends that they may be introduced from the 1st Jan. 1914. But in a later communication from the same office it is stated that the new manufactory will not be ready till about January next. Till the manufactory is located here it is not possible to issue new design of the General Stamps. As regards the receipt and custody (cash site?) of stamps it may be possible to issue them by the 1st January 1914 or even earlier as the Supdt. of the manufactory has represented in his letter of the 13th May, the same being printed on the present

building. But the Comm^r of Stamps suggests a later date, viz, 1st Jany 1914. But as matters at present stand some time is required to issue General stamps after the manufactory is removed to the new buildings. It may therefore perhaps be necessary to fix the 1st of March 1914 as the date from which stamps of new design of both General, Court fee & receipt stamps, may be issued to the public.

The Comr seems to suggest that all the stamps may be issued from the 1st Jany 1914. But as the building will not be ready for printing of stamps by that time & as it will be better to issue all the stamps of the new design simultaneously a later date, say 1st of March may be fixed

3 Paras 2 & 3.

As regards the withdrawal of the old stamps in the several treasuries for destruction, and the fixing the date from which new stamps will not be given in exchange for the old one it is said that when Court-fee Stamps of new kinds were introduced in 1884, two months time was given for the exchange of new stamps or the payment of the values of the old stamps and one month was allowed for the use of the old stamps. It may perhaps be convenient to notify that new stamps may be issued and used by the

public from the 1st march 1914. No time need be given for the use of the old stamps from that date, as within 2 months exchange of new stamps is permissible.

4. Para 4. The Comm^t of Stamps has approved of the suggestions of the Supdt of the manufactory and recommends the same for sanction. The decision of the Stamp Committee is noted in two places. In one it is stated that the Stamps should be printed in different colours and in the other it is more definitely stated that in each series each denomination shall be printed in different colours.

It is observed that in the suggestions made by the Supdt no two values of the same series will have the same colour. As the back-ground etc, of each of the Series is different from the other, the suggestions of the Superintendent are not in conflict with the

decision of the Committee. It is also suggested by the Superintendent that the one anna receipt Stamp may be printed in British P.O. red as per sample sent up by him.

5. Point 5. The designs for Foreign Bill, Transfer, & Notarial Stamps seem to have not been considered by the Stamp Committee. At present they come under the Rule 174 of the Rules issued under the Stamps Regn. These are of the old design and in some cases it is ascertained that even the Stamps are very old. There are 11 denominations in each of the Foreign Bill & Transfer Stamps.

It is not clear why no action was taken by the Committee with reference to these Stamps. Mr Hiriyannayya who was the Asst Secretary to the Committee may give the reason for this. It is ascertained

that the demand for these stamps is very limited and that there is a large stock of old stamps. The Comm^r of Stamps ~~address the~~ solicits the orders of Govt as to whether those stamps of the old design may be continued to be used even after the introduction of new ~~Stamp~~ stamps.

I understand that the Stamps Supt has forwarded certain proposals regarding these to the Stamp Comr.

Point 6. Another point is suggested in this connection, viz, whether it is necessary to issue a notfn under the Stamps Rules and another under the Court fee Rules or one notfn under both the Rules viz sec 75 of the Stamps Rules sec 35 of the Court fees Rules.

7. First, as regards the question of the date of the introduction of the stamps of the new design, it seems desirable that all the stamps of the new design should be issued simultaneously to the public. From the ~~Stamp~~ Supt's letter

it is clear that ~~the~~ new general stamps ~~may~~ can be printed only after the new building is finished. It may therefore be necessary to postpone the issue of the new Court fee & receipt stamps also, till the ~~Govt Hos~~ building is constructed for printing the General Stamps.

8 The Colours for the various denominations of Stamps recommended by Mr Yates may be approved.

9 As regards the measures necessary to bring the new Stamps into effect, the Com's proposals may be approved. As was done in 1884, two months' time may be given after the introdn of the new Stamps for exchanging the old Stamps for new ones & one months time allowed for use of the old Stamps.

Stamps could be printed and issued at least the quantity necessary for immediate use. But the Superintendent states (on the 8th Dec.) that 'even if the new premises and machinery were all in working order, it would be impossible to comply with the order to issue the new stamps for use from 1-3-14.

It is not easy to give similar figures for 1-7-14. 49. The Com^r of Stamps seems to have taken the 'loss consequent on the prohibition of old stamps' to be represented by the face value of the stamps left on the date of the introduction of the new stamps. What is really lost seems to be the cost incurred in manufacturing the stock of stamps remaining, viz., the cost of paper and printing, and this is what Mr Yates refers to in para 3 of his D.O. letter no 161 Dy 8.12.13 to the Com^r of Stamps.

on the representation of the Supdt of the Stamp Manufactory the words "such date as will be notified later on" were substituted for "1st March 1914". Now the Comnr of Stamps suggests that the 15th May 1914 may be fixed as the date from which the new stamps may be issued from the Treasuries.

77. Another modification has also been suggested by the Stamps Comnr. Some companies have large stock of skeleton printed forms which they will not be able to use up completely for some good length of time and to make them render them inoperative will cause loss. Therefore the words "except those which may have been already impressed by the Supdt of Stamps" are proposed to be inserted between the words "private persons" & "may be used" in para 2 of the notfn of 2nd Decr 1913.

78. Two drafts already put up are suitably amended and submitted.

79. The date from which the new stamps may be issued may perhaps be fixed as 1st July 1914 instead of 15th May 1914 as proposed by the Stamps

D.O. No 543 Dated Bangalore, 2nd April 1914.

Dear Ramanatham

84 Your D.O. letter No. Fl.4459 of the 28/30th Ultimo. Thinking it safer, I made enquiries of the two Superintendents concerned, before replying to it, and the result is just what I had apprehended. The Superintendent of the Stamp Manufactory reports that he has begun the new printing of the stamps, that he has also supplied a number of them in all denominations, to the Superintendent of Stamps and that he hopes to be able to supply the full quantity required before long. So far it is satisfactory enough. The Superintendent of Stamps has however another tale to tell. He states that he has no hesitation in replying that it is absolutely impossible to keep to the date agreed

agreed upon - 15th May next - <u>if his establishment is not strengthened immediately.</u> He adds, that calculating on the basis of indents received so far - only from five Districts - the General stamps alone require being counterstamped at the rate of seven thousand a day, while with their best effort, his men at present cannot approach even half that rate. Further there is the counting to be done every day of the stamps delivered by the Manufactory, as also considerable packing and carriage work. He winds up by saying that unless immediate sanction is accorded to his entertaining five temporary pressmen, pending final orders of Government on the proposals now before it for the re-organisation of the two establishments, he will be quite unable to issue the new stamps on the date proposed viz. 15th May 1914. From what I have seen myself of the work done in the Stamp office, I am convinced that it is a physical impossibility for the Superintendent to get through his work without additional hands being given to him. It is possible that Government may require some more time to pass final orders in the matter - and whatever the consequence of this may be it must be realised that there can be no issue of

the stamps till the staff of the Stamp office is strengthened, temporarily at least - to the extent proposed by the Superintendent. If the Government will kindly see their way to accepting this proposal, I shall get the Superintendent to go ahead and be prepared for the issue of the new stamps on the 15th proximo. The matter is urgent and very early orders are solicited, and, I fear, that every day's delay will necessitate proportionate postponement of the date of issue. I regret to have had to put it all so baldly but circumstances have made it inevitable.

Sir,

In forwarding herewith letters No. 287 and [illegible] No. 294 dated 13th and 23rd May 1913 respectively from the Superintendent of the Stamp Manufactory, I have the honor to propose that the Stamps of the new design may be introduced from the 1st January 1914. The stock of the old Stamps in the several treasuries may be re-called for destruction. As regards the old Stamps with the Vendors and the public, new Stamps may be issued in exchange for the same, some date being fixed for such exchange. If these proposals of mine are sanctioned I mean to request all Deputy Commissioners not to indent for more Stamps of the old design than are absolutely necessary to cope with the demand for the same from the public till the 1st January 1914. I approve of the scale of colours for the several Stamps submitted by the Superintendent of the Manufactory, and request that the same may be sanctioned by Government. The new Receipt Stamps may be printed in brick-red colour as that of the British Penny Postage Stamp. The samples of [illegible] colours forwarded by the Superintendent of the Manufactory are also sent herewith.

2. In this connection I observe that no new designs and colours would appear to have been decided upon for Transfer, Foreign Bill and Notarial Stamps by the Stamp Committee. I there-

therefore solicit the orders of Government as to whether in the case of such Stamps, those of the old design are to be continued to be used even after the introduction of new Stamps of other denominations.

I have the honor to be,

Sir,

Your most obedient servant,

SIR,

With reference to the printing of Government Stamps of various kinds, for which new plates have been prepared, I have the honor to enquire whether-so far as the receipt and Court fee stamps are concerned— the printing from these new plates may begin with the new indent for the new year in July next..

2. If so, is it desired by Government to continue printing the receipt stamp in the same orange colour as at present?

3. The Court fee stamps, being of several values from Rupees six downwards, will be printed in different colours, as decided upon by the Stamp Committee.

4. The printing from the new plates for general stamps must be deferred until the machinery can be started in the new buildings now being erected.

To

M. KANTHARAJ URS, Esq., B.A.,
Commissioner of Stamps in Mysore.

SIR,

With reference to your docket No. 409, dated 21st May, 1913, requesting me to suggest a scale of colours for the several stamps which will be submitted to Government for approval, I give herewith the required list:--

1. RECEIPT STAMPS.--As already suggested, if the present orange colour for these is not desired, I would recommend the British P.O. red, the same colour as the one penny stamp, enclosed.

2. COURT FEE ADHESIVE LABELS.--There are ten values for these: five in annas values and five in rupees values. These may be printed as follows:--

SERIES I.	SERIES II.
As. 1. - - - Orange	Rs. 1. - - - British P.O. Red.
,, 4. - - - Green	,, 2. ,, Green *
,, 6. - - - Blue	,, 3. - - - Violet
,, 8. - - - Deep Red	,, 4. - - - Rose Lake *
,, 12. - - - Brown	,, 6. - - - Burnt Umber *

* Prints of these not available for the moment.

3. COURT FEE STAMPS (LARGE).--These were divided into series by the Stamp Committee. There are twenty-two values in all. It is not possible to get different colours for all these; but the back grounds of each of these three series differ. I therefore propose the

ORDER THEREON.—No. H2297-346

2nd Decr 13.

The question of making suitable arrangements for the printing of the various kinds of stamps in use in the State has been under the consideration of Govt for some

for some time past. In 1909 Govt. appointed a Committee to consider the matter fully and submit a report to Govt. After careful consideration the Committee recommended that the printing of such stamps should be done in Bangalore, that the stamps should bear on them the portrait of H.H. the Maharaja and that the necessary dies, plate and machinery, etc, should be obtained from England. They also suggested that, as the number of separate value dies in use at present was excessive, five designs would be sufficient, each design including several values printed in a different colour, in addition to designs for Court fee labels and Receipt stamps.

In accordance with these recommendations, suitable designs were prepared by Mr Yates and approved by the Committee

as well as by Govt; and the necessary plant has also been obtained.

3. ~~(3)~~ To give complete effect to the scheme Govt are pleased to order as follows on the various questions raised by the Comptr of Stamps:—

(a) It is suggested that the stamps of the new design may be introduced from the 1st January 1914. As, however, the printing from the new plates for general stamps can be undertaken only after the new building near the Govt Press is finished, Govt are pleased to approve of the introduction of all the stamps of the new design with effect from the 1st March 1914.

(b) The proposals of

the Supdt of the Stamps Manufactory which are agreed to by the Comms of Stamps regarding the colours for printing each denomination of the several series of stamps are approved.

(c) As regards recalling the stock of old stamps, Govt are pleased to direct that the old stamps in possession of private persons may be used for one month from 1st March 1914, and that during two months from the same date, old stamps should be taken in exchange for new ones in all the Govt Treasuries. From 1st March 1914, the issue of old stamps from Govt Treasuries is prohibited, and the stock of old stamps in the Treasuries

should be sent to the Supt. of Stamps for destruction in the manner indicated in a separate order.

Sir,

With reference to G.O. No. Fl.0297-340/S.R.261-13-3 dated 2nd December 1913 sanctioning the issues of the stamps of the new design from the 1st March 1914 and the destruction of those of the old kind after that date, I have the honor to inform you that Mr.Yates, Superintendent of the Stamp Manufactory now informs me (copy of his letter enclosed) that it will be quite impossible for him to print and supply Stamps of several denominations in time to be ready for issue on the 1st March 1914 and that he cannot definitely fix a date by which he will be able to do so, considering that the new machinery has to be set up in the new premises before he can begin work and gauge the outturn.

2. I therefore request that the date "1st March 1914" may be omitted in Notification No.2347/S.R.261-13-3 dated 2-12-13

and

and the expression " from such date as will be notified later on " be substituted in para 1.

3. With regards Mr.Yates' ~~expression~~ suggestion about the destruction of the old Stamps, I have the honor to forward copy of letter No 194 dated 30th May 1913 from the Superintendent of Stamps from which it will be seen that the stock of stamps most in demand will last for six months and those for which the demand is very little are so damaged that they may be destroyed with advantage. The loss to Government will not be so great as is anticipated by Mr.Yates. The period of currency of 3 months allowed after the introduction of the new design is quite ample and will not leave such a large surplus either in the Central Stores or the Treasuries as to be considered a loss to Government. Further the manufacture of these old stamps and their supply to the Treasurie will be so regulated as not to leave a large surplus, after the introduction of the new stamps, I am not in favour of modifying para 2 of the Notification except as regards the date "1st March 1914".

4- Very early orders are solicited.

I have the honor to be,

Sir,

Your most obedient servant,

for Commissioner of Stamps.

D.O.No.161.

Mysore Government Press,

Bangalore, December 8th 1913.

M Kantaraj Urs, Esq., B.A.,

Commissioner of Stamps.

Dear Sir,

I am in receipt of G.O.No.Fl.2347-S.R.261-12-3 dated 2nd December, with reference to the issue of new stamps.

2 May I take the liberty of pointing out that it will be quite impossible to print and supply stamps of the several denominations in time to " be ready for issue in all th Treasuries in the State from the 1st March, 1914." Even if the new premises and machinery were all in working order it would not be possible to comply with this order. As things are at present, it will take some weeks before I can begin the work, so far as General Stamps are concerned. I can begin at once with Receipt and Judicial Stamps only.

3 I observe also that the G.O. says that from 1st March 1914 the issue of old stamps from the Govt. Treasuries will be prohibited. This means that the stock in the Treasuries will become mere waste paper, and that there will be a loss to Government to that extent. As you know, the stamp paper costs a considerable amount of money.

4 It is usual all the world over, when a new sovereign comes to the throne, to issue new stamps, but the old stock continues to be issued until exhausted. In fact some of the Queen Victoria stamps are still being used

5 I therefore venture to suggest that the current stock of stamps be issued until exhausted. Meanwhile we can be printing the new stamps, which could be issued as soon as

sufficient

sufficient supplies are printed. The date of the issue might, therefore, under all these circumstances, be postponed sine die

Yours sincerely,

Sd. C.F. Yates

Superintendent, Stamp Manufactory.

Sir,

With reference to your docket No.402 dated the 15th Instant, I have the honor to state that the stock of the values most in demand as per example 2 annas, 4 annas, 8 annas, 1 Rupee, 2 Rupees &c, are not likely to last more than six months. The other kinds and values for which the demand is very little such as Transfer stamps &c, may last for considerable number of years to come. The latter I may say are so dirty, faded and damp, that the prolongation of their life will serve no purpose other than that of accentuating the contrast between them and the new stamps which are shortly to be called into being.

I have the honor to be,

Sir,

Your most obedient servant,

To

K.R.Srinivasiengar, Esq.,M.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments.

Sir,

Adverting to your letter No. Fl. 2670/S.R.261-13-10 dated the 19th December 1913, I have the honor to state that, as will be seen from the enclosed statements of actual stock and average monthly consumption of stamps received from the Deputy Commissioners and the Superintendent of Stamps, there is at present a little more than three months' stock of stamps in most of the Treasuries in the State. There will therefore be no appreciable loss by the prohibition of the use of old stamps consequent on the introduction of new stamps from the 1st March 1914. In ca however, the issue of the new stamps is posteponed to the 1st July 1914, the Deputy Commissioners will have to indent for a fresh stock of old stamps. But by carefully regulating their future indents, the Deputy Commissioners may reduce to a considerable extent the number of old stamps that will remain unused in the Treasuries.

I have the honor to be

Sir,

With reference to your letter No. Fl. 2637/S.R. 19-13-4, dated 18/22nd December 1913, in reply to my letter, No. 12 dated 9th July 1913 making certain proposals for the efficient carrying on of the work in the Stamp Manufactory and in the Stamp Superintendent's office, in accordance with Government Order No. Fl. 6791-801/S.R. 121-4-8 dated 19th May 1913, I have the honor to state that I have had a detailed discussion with both the Superintendents, and, in company with them, inspected also the rooms occupied, till recently, by the Stamp Manufactory and to finally submit now the following proposals on the several ~~points~~ points involved for the very early orders of Government.

I. Accommodation.

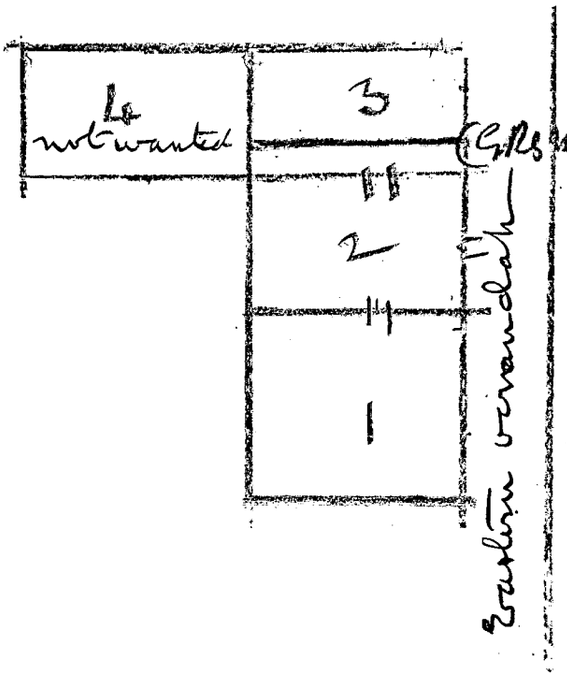
The Stamp Manufactory occupied four rooms in the Public

(1)

Rec. 28.2.14

54

Public Office Buildings as shown in the marginal sketch. Room No.1



is fitted up with iron racks and other fittings convenient to store the stock of three-pie and other water-marked papers. These arrangements are of a permanent nature and will come in very handy and useful for storing the stock when it is handed over to the Superintendent of Stamps. The next room (No. 2) is now used as the office room and is the only means of ingress to No. 1. It will be convenient for the Superintendent to hold his office here and to have the stock direct under his personal supervision. Room No. 3 will be required for the work of surcharging stamp papers and storing printed stamps. The Superintendent represents strongly that he has very little accommodation in the Treasury Strong room and that in consequence he feels great inconvenience in complying with indents during certain heavy seasons. Having convinced myself of this by personal inspection, I propose to convert Room No. 3 into a strong room for storing stamps before issue to the Treasuries. I have been given to understand that the work of surcharging, which is rather an unpleasantly noisy one, has been complained against by the offices located just above on the first floor, and it has had to be suspended at times in consequence. Room No.3 is therefore the best suited for

55

this work being free from the inconveniences above detailed. I have therefore to request that the set of rooms from 1 to 3 may be made over for the use of the Superintendent of Stamps. I have however, in anticipation of sanction, requested him to make the necessary arrangements accordingly.

II. Establishment.

1. The Superintendent of the Manufactory finding that his permanent staff was not adequate, was applying for the marginally noted extra establishment to get through his work. This was being sanctioned year after year, on a temporary ~~basis~~ scale. Government in sanctioning this establishment in their No. Fl.1030-3/S.R. 19-13-4 dated 22nd August 1913 have however allowed it to continue until further orders, and have said further, that the question of making it permanent will be considered later on. As the transfer of stock to the Superintendent of Stamps will throw this work on him, I submit that this establishment may be converted into one on a permanent scale henceforward.

One Counter on Rs. 15,
.. do .. Rs. 12, &
One packer on Rs. 8

2. The Stock Branch sanctioned for the Manufactory consists of four hands, of ~~which~~ whom Mr. Yates proposes to spare two for work under the other Superintendent. The transfer of the stock will not lessen the work of counting the papers on their receipt in the Manufactory, and the stamps after printing and

Peel

before being passed on to the Central Depot. I am therefore

One Counter on Rs. 15 &
One Mutchi on Rs. 12

agreeable to the retention of the marginally noted portion of the Stock Branch establishment by Mr. Yates. The distribution work of Copy Stamps and three-pie paper being now transferred to the Central Depot, an extra establishment of one Counter and one Mutchi will be necessary for that office and I request that early sanction may be obtained for the entertainment of these additional hands.

3. The Superintendent of Stamps has all along been urging the necessity for a peon to escort ~~the~~ consignments to the Manufactory and also to the Railway station for despatch to the several Treasuries. I quite concur with him in this ~~request~~ and request that sanction may be obtained for the entertainment of a peon on Rs. 7 for the office of the Superintendent of Stamps.

4. I take this opportunity of inviting your attention to letter No. 128 dated 20th December 1906 to Mr. Chandrasekhara Iyer, then Secretary to Government, from the Superintendent of Stamps submitting proposals for the re-organisation of the Stamp Superintendent's office. The present Superintendent has more than once urged upon ~~him~~ the Commissioner of Stamps the responsible nature of the work of the Supervisor of his office and requested that his salary may be raised to Rs. 80-10-120 from Rs. 50-5-60. The present incumbent is reported to be working most satisfactorily

Read 25.2.14

without any encouragement for a long time, and I therefore recommend that the case for the enhancement of his emoluments may be favourably considered.

5. I invite kind attention to my letter No. 339 dated 19th June 1912 proposing an increase of salary to the Supervisor of the Stamp Manufactory and request that orders may be obtained in this case as well. Government in their Order No. Fl. 2529-30/S.R.115-05-2 dated 31st December 1908 directed that the post of Store-keeper of the Manufactory should not be permanently filled up. The present incumbent has therefore held the post on a temporary basis, but as he is reported to have done his work satisfactorily, his appointment may be confirmed on a permanent scale.

6. To sum up, the changes in the establishments of the two offices recommended supra are as follows:-

(i) Sanction to the entertainment of two hands (1 Counter on Rs 15 and 1 Mutchi on Rs 12 total Rs 27 per mensem) in the Stock Branch of the Stamp Superintendent's office to replace the two hands taken away from this branch by the Superintendent of the Manufactory.

(ii) Sanction to the conversion of the present temporary establishment consisting of 1 Counter on Rs 15/-, 1 Counter on Rs 12/- and 1 packer on Rs 8/-. Total Rs 35 per mensem, into a permanent one.

(iii) Sanction to the entertainment of a peon on Rs 7 in the

office of the Superintendent of Stamps.

(iv) Increase of pay to the Supervisors of both the offices and the confirmation of the Store-keeper of the Manufactory.

I have called for the necessary proposition statements from the two Superintendents and hope to be able to submit them at an early date.

III. Issue of new stamps.

Mr. Yates has just finished shifting the stamp printing machinery into the new premises and he says that he will be able to supply stamps of the new design by the first week of April next. But as the Superintendent of Stamps will not be able to finish surcharging enough of stock for issue before 1st May following, I have, consultation with both of them, come to the conclusion that the Stamps of the new design may be issued from the Treasuries from 15th May this year. It is calculated that the existing stock of old stamps will hold out till then and not leave also any appreciable surplus after that date.

2. I therefore request that it may be notified that the new issue stamps will come into force from 15th May next. Government Order No. Fl. 2297-340/S.R. 261-12-2 dated 2nd December 1913 and the Notifications thereunder, as modified by Notification No. No. Fl. 3819/S.R.261-12-12 dated 20th February 1914, may be finally modified by inserting 15th May 1914 as the date of issue in paras 1 and 2.

Recall of old stamps.

With reference to para 3 (c) of the above mentioned Notification recalling old stamps from public use, it has been brought to my notice that some companies have large stocks of skeleton printed forms impressed with stamps, which they will not be able to use up completely for some good length of time. To render them invalid and inoperative would entail loss on the companies who would therefore have a grievance in the matter. I am therefore of opinion that they may be exempted from the rule prohibiting the currency of old stamps 3 months after the date mentioned above. If this suggestion is accepted, para 3(c) may be amended as follows:-

"Government are pleased to direct that old stamps in the possession of private persons, except those which may have been already impressed by the Superintendent of Stamps, may be used for one month from etc."

I request that very early orders may be obtained on the several points dealt with in this letter.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 428, dated the 9th June 1913, from the Commissioner of Stamps in Mysore, submitting his proposals on the introduction of the stamps of the new design.

No. FL. 2297-346—S. R. 261-12-2, DATED BANGALORE, 2ND DECEMBER 1913.

ORDER THEREON.—The question of making suitable arrangements for the printing of the various kinds of stamps in use in the State has been under the consideration of Government for some time past. In 1909 Government appointed a Committee to consider the matter fully and submit a report to Government. After careful consideration the Committee recommended that the printing of such stamps should be done in Bangalore, that the stamps should bear on them the portrait of His Highness the Maharaja and that the necessary dies, plates and machinery, etc., should be obtained from England. They also suggested that, as the number of separate value dies in use at present was excessive, five designs would be sufficient, each design including several values printed in a different colour, in addition to designs for Court fee labels and Receipt Stamps.

2. In accordance with these recommendations, suitable designs were prepared by Mr. Yates and approved by the Committee as well as by Government; and the necessary plant has also been obtained.

3. To give complete effect to the scheme, Government are pleased to order as follows on the various questions raised by the Commissioner of Stamps:—

(*a*) It is suggested that the stamps of the new design may be introduced from the 1st January 1914. As, however, the printing from the new plates for general stamps can be undertaken only after the new building near the Government Press is finished, Government are pleased to approve of the introduction of all the stamps of the new design with effect from the 1st March 1914.

(*b*) The proposals of the Superintendent of the Stamp Manufactory, which are agreed to by the Commissioner of Stamps regarding the colours for printing each denomination of the several series of stamps are approved.

(*c*) As regards recalling the stock of old stamps, Government are pleased to direct that the old stamps in possession of private persons may be used for one month from 1st March 1914, and that during two months from the same date, old stamps should be taken in exchange for new ones in all the Government Treasuries. From 1st March 1914, the issue of old stamps from Government Treasuries is prohibited, and the stock of old stamps in the Treasuries should be sent to the Superintendent of Stamps for destruction in the manner indicated in a separate order.

4. A notification embodying these changes as appended will be published in the Gazette for general information.

5. Separate orders will issue regarding the designs for Notarial, Foreign Bill and Share Transfer Stamps.

2. The old stamps in possession of private persons may be used for one month from 1st March 1914 and during two months from the same date old stamps will be taken in exchange for new ones in all the Government Treasuries. From 1st March 1914 the issue of old stamps from the Government Treasuries is prohibited.

By Order,
K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

No. 428, dated Bangalore, 9th June 1913, from M. Kantaraj Urs., Esq., B. A., Commissioner of Stamps in Mysore, to K. R. Srinivasa Iyengar, Esq., M. A., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

In forwarding herewith letters No. 287 and No. 294, dated 13th and 23rd May 1913, respectively, from the Superintendent of the Stamp Manufactory, I have the honor to propose that the stamps of the new design may be introduced from the 1st January 1914. The stock of the old stamps in the several treasuries may be re-called for destruction. As regards the old stamps with the vendors and the public, new stamps may be issued in exchange for the same, some date being fixed for such exchange. If these proposals of mine are sanctioned, I mean to request all Deputy Commissioners not to indent for more stamps of the old design than are absolutely necessary to cope with the demand for the same from the public till the 1st January 1914. I approve of the scale of colours for the several stamps submitted by the Superintendent of the Manufactory, and request that the same may be sanctioned by Government. The new Receipt Stamps may be printed in brick-red colour as that of the British Penny Postage Stamp. The samples of colours forwarded by the Superintendent of the Manufactory are also sent herewith.

2. In this connection I observe that no new designs and colours would appear to have been decided upon for Transfer, Foreign Bill and Notarial Stamps by the Stamp Committee. I therefore solicit the orders of Government as to whether in the case of such stamps, those of the old design are to be continued to be used even after the introduction of new stamps of other denominations.

No. 287, dated Bangalore, 13th May 1913, from C. H. Yates, Esq., Superintendent, Government Stamp Manufactory, Bangalore, to M. Kantaraj Urs, Esq., B. A., Commissioner of Stamps in Mysore, Bangalore.

With reference to the printing of Government Stamps of various kinds, for which new plates have been prepared, I have the honor to enquire whether so far as the receipt and court fee stamps are concerned the printing from these new plates may begin with the new indent for the new year in July next.

2. If so, is it desired by Government to continue printing the receipt stamp in the same orange colour as at present?

3. The Court fee stamps, being of several values from Rupees six downwards, will be printed in different colours, as decided upon by the Stamp Committee.

4. The printing from the new plates for general stamps must be deferred until the machinery can be started in the new buildings now being erected.

No. 294, dated Bangalore, 23rd May 1913, from C. H. Yates, Esq., Superintendent, Government Press, Bangalore, to M. Kantaraj Urs., Esq., B. A., Commissioner of Stamps in Mysore.

With reference to your docket No. 409, dated 21st May 1913, requesting me to suggest a scale of colours for the several stamps which will be submitted to Government for approval I give herewith the required list:—

1. *Receipt Stamps.*—As already suggested, if the present orange colour for these is not desired, I would recommend the British Post Office red, the same colour as the one penny stamp, enclosed.

2. *Court Fee Adhesive Labels.*—There are ten values for these: five in annas values and five in rupees values. These may be printed as follows:—

SERIES I.		SERIES II.	
Anna 1	... Orange	Re. 1	... British Post Office red
As. 4	... Green	Rs. 2	... British Post Office green*
„ 6	... Blue	„ 3	... Violet
„ 8	... Deep red	„ 4	... Rose lake*
„ 12	... Brown	„ 6	... Burnt umber*

* Prints of these not available for the moment.

3. *Court Fee Stamps (Large).*—These were divided into series by the Stamp Committee. There are twenty-two values in all. It is not possible to get different colours for all these; but the back grounds of each of these three series differ. I therefore propose the following colours:—

SERIES III.		SERIES IV.	
Rs. 10	... Orange	Rs. 32½	... Orange
„ 12½	... Green	„ 35	... Green
„ 15	... Blue	„ 37½	... Blue
„ 17½	... Deep red	„ 40	... Deep red
„ 20	... Brown	„ 42½	... Brown
„ 22½	... British Post Office red	„ 45	... British Post Office red
„ 25	... British Post Office green	„ 47½	... British Post Office green
„ 27½	... Violet	„ 50	... Violet
„ 30	... Rose lake		

SERIES V.

Rs. 60	... Orange	Rs. 90	... Deep red
„ 70	... Green	„ 100	... Brown

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 9th April 1914.

READ—

Government Order No. Fl. 2297-346—S. R., 261-12-2, dated the 2nd December 1913, ordering the introduction of the stamps of the new design from 1st March 1914 and prescribing the periods of time within which the old stamps in the possession of private persons may be used or got exchanged for new ones.

2. Government Order No. Fl. 2348-58—S. R. 261-12-4, dated the 2nd December 1913, laying down the procedure to be adopted for the despatch of old stamps from the several treasuries and for their destruction in the office of the Superintendent of Stamps.

3. Correspondence ending with letter No. 466, dated the 27th February 1914, from the Commissioner of Stamps in Mysore, recommending, among other proposals, that the stamps of the new design may be issued from the treasuries from the 15th May 1914 and that large stocks of skeleton printed forms which have been already impressed with stamps by the Superintendent of Stamps may be exempted from the rule prohibiting their currency after this date.

No. Fl. 4652-701—S. R. 261-12-14, DATED BANGALORE, 9TH APRIL 1914.

ORDER THEREON.—On further consideration, Government are pleased to direct that the stamps of the new design be brought into use from the 15th May 1914, from which date the issue of old stamps from the Government Treasuries is prohibited.

2. The instructions already issued regarding the use of old stamps, their exchange for new ones and their recall for destruction will hold good, subject to the several dates prescribed being altered according to the above decision of Government. These restrictions will not apply to instruments which may have been already impressed by the Superintendent of Stamps under Rule 7 of the Rules issued under the Stamp Regulation, II of 1900.
